March 19, 2020

Good Morning,

This is an important message from the Seneca Nation Health System regarding our operations in response to COVID-19.

To begin- we would like to thank all Health System patients and staff for their cooperation and flexibility as we navigate challenges in Health System operations.

Since early March many of us have been continuously preparing, planning, and adjusting our response to COVID-19. As we have encountered our first confirmed case in the area, we have made an unprecedented decision to close the Health System on Thursday 3/19 and Friday 3/20 in order to perform a deep clean of all of our facilities, as well as to make sure our staff is prepared for the upcoming weeks.

We will make every effort to keep you updated as we develop a plan to move forward. To all of our dedicated staff: your continued devotion to the Seneca community is appreciated, thank you for all you do.

Nya:weh,

SNHS Administration
